

HARISH R

Java Full Stack Developer

Bangalore, India — 9361291061 — hariranganathanvk@gmail.com
LinkedIn — GitHub — Portfolio

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience developing enterprise applications using Java, Spring Boot, REST APIs, JPA/Hibernate, SQL, and React. Experienced in business logic, workflow-driven applications, database operations, API integrations, scheduled processing, caching, and application testing.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript

Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, OpenFeign

Frontend: React, HTML5, CSS3

Database: MySQL, PostgreSQL

Core: Business Logic, Workflow & Approval Systems, Authentication & Authorization, DTO Validation, Pagination, API Integration, Scheduling, Caching

Tools: Git, GitHub, IntelliJ IDEA, VS Code

PROFESSIONAL EXPERIENCE

QuGates Technologies Pvt Ltd

Bangalore, India

Probationary Junior Developer

Apr 2026 – Present

- Develop enterprise applications and backend services using Java, Spring Boot, REST APIs, JPA/Hibernate, SQL, and React.
- Implement business logic, validations, database operations, API integrations, and workflow-driven application features.
- Work across development, debugging, testing, and end-to-end feature implementation while collaborating with the development team.

Software Development Intern

Dec 15, 2025 – Mar 2026

- Contributed to the development of the company's flagship product within the SDRT department, supporting frontend, backend, REST API, database, and testing activities.

KEY PROJECTS

Performance Management System (PMS)

- Developed modules for business goals, strategies, KPIs, formulas, employee goals, competencies, self-assessment, and performance reviews.
- Implemented metric resolution, achievement calculations, multi-level approval workflows, JWT-based authentication, role-based authorization, notifications, caching, and scheduled processing.

Recruitment & Manpower Management System

- Developed manpower planning, job profiles, job openings, candidate management, recruitment workflows, interviews, assessments, and hiring modules.
- Implemented REST APIs, DTO validation, pagination, status-based workflows, recruitment reporting, and cost-per-hire analysis.

Incentive Management System

- Developed incentive structures, plans, employee assignments, targets, formulas, calculations, distributions, and payout modules.
- Worked on incentive ledger processing, automated synchronization, validation, audit handling, and payroll reconciliation.

EDUCATION

B.E. – Electronics and Communication Engineering

2021 – 2025

Government College of Engineering, Dharmapuri

CGPA: 7.52

PROFESSIONAL HIGHLIGHTS

- Team Lead responsible for task coordination, work allocation, team collaboration, and ensuring timely project deliverables.
- Demonstrated ownership across the development lifecycle, from requirement understanding and implementation to debugging, testing, and delivery.
- Strong problem-solving and business-domain understanding, with the ability to translate requirements into practical technical solutions.
